## TERMS OF SALE

**All bids by mail.** We have over 3,000 customers who are interested in these sales. They live in every state of the union, and in some foreign countries. They can not all come to Freeport in person each month to attend an auction. In fact, not one per cent of them could do so. In fairness to those who live at a distance, and cannot attend a sale in person, we request all bids to be sent in advance of the sale, by mail.

**Coins will be bought below your bids** where other offers permit, as this is competitive bidding, executed in good faith.

Where two or more bids are exactly the same on any lot, or tied, the lot is sold to the first bid received at exactly his bid.

**No unlimited bids** will be accepted from anyone, at this sale. Mark your highest limit or bid on the bid sheet, and we will buy as much under this price, as other actual bids permit. **Get your bids in before the date of sale.** Don't wait until the last minute. Help us with our work and we will help you get something.

The usual charge of 5% will be made for executing your bids. No charge is made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.**

**Be certain that you bid on the lot you wish to buy.** We will correct errors and adjust claims, but you should not expect us to pay for **your mistakes. Be careful** in making your bids. Be sure that you bid on the lot you wish to buy, and **at so much per piece.**

**Bids must reach me by the morning of the sale.** Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

The price lists have to be set up and printed after the sale, and are mailed first class, usually about 15 days after the sale date.

Between the seller and buyer, my position in describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative by the collecting public.

**It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values.** It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector

acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

**The terms are prompt cash settlement after sale,** and no time given. Collectors who are not certain that they can pay promptly, are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

**Remit by money order, draft, check,** or in any way most convenient. **Stamps accepted for accounts that are below one dollar only.**

All coins and other items are guaranteed genuine, unless otherwise stated.

**Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece. Exception—where stated to bid for lot.**

**NOTE—A printed list of all the prices realized at this sale will be sent for fifty cents (50c). Send coin or stamps with your bids so as to reserve a price list, or if you prefer, we will add the cost to your bill of items purchased for you at this sale. Keep posted on coin values as they are today, and order a price list in advance of the sale. After the sale they cost \$1. Before, they are 50 cents.**

### UNITED STATES LARGE COPPER CENTS

The owner of this splendid collection of large cents was an associate and close friend of Clapp, Hines, and Newcomb, and thus was able to assemble a great collection, with the aid of dealers. Over a long period of years he had been a valued customer at all Bolender sales, always having a keen sense to know what was desirable. The 1795's, 1796's, and 1797's are especially remarkable. Few collections today are so nearly complete. The total collection numbers over 1100 coins. Those dated from 1827 to 1857 will be offered in our 182nd sale in November. Interested collectors please take note. The following reference books have been used in the catalogue work: Crosby for the 1793 cents, Hays for 1794, Doughty for 1795, 1797, 1798 to 1814; Gilbert & Elder for 1796, Newcomb for 1797 and 1800 to 1803 and 1816 to 1857; Clapp for 1798; and the cents from 1793 to 1814 are also attributed according to Dr. Wm. H. Sheldon's recently published excellent and most interesting book on the cents of those years. Since its publication, the interest in this series has gained much popularity. Since few collections of this caliber exist today, here is an opportunity that I predict will not come again soon, to improve your collection. Each coin comes in an individual coin box, an excellent way to keep choice large cents, and to protect their condition. In my opinion it is the best method of housing them. Collectors of experience know that not all dealers catalogue the condition of coins in the same way. I have given an accurate description of the condition, as to quality, color, surface, striking, and special things that count. Many collectors today call me very conservative, and I do believe I have been fair. I know what collectors want, and I will not disappoint you. The estimates are based on Dr. Sheldon's values, in some cases, or recent sale records, or standard catalogue values, or retail price list. They are furnished only as a guide, and as there are no limits on any coins, you may bid higher or lower, and some of the coins may sell for less. High bids are executed as approximately 5% above the second high bid.

### UNITED STATES SILVER DOLLARS (The Marmaduke Fox Collection)

NOTE: The early silver dollars have become one of our most popular series, and about a hundred distinct varieties of those dated before 1804 are here offered, the best offering at auction sale anywhere since the sale of the World's Greatest Collection by the Numismatic Gallery in New York in January 1945, when 125 varieties were sold.

This fascinating series of our early dollars is the subject of a new book published by Mr. Bolender last July. This book describes and illustrates more than 170 varieties in the Bolender collection, and should be in the library of every American collector. See last pages in this catalogue for more about this book. The reference numbers used below refer to this book, the recognized standard authority on the subject. Every coin here offered has been carefully attributed as to variety and condition. The quality of each coin is guaranteed, as with all coins in the past 180 Bolender sales, and collectors will not be disappointed. The values are given as a guide only, and all coins will be sold without reserve, and bids will be fairly executed as per terms of sale.

1457. **1795 U. S. Silver Dollar.** Flowing hair. Date spaced 1 795. Rx. two leaves under each wing of eagle. **Bolender No. 1.** Ex. fine, some mint lustre. A specimen of this variety uncirculated sold in the World's Greatest collection sale for \$145. This one is from the Lighthouse coll'n. and valued at \$60.
1458. **1795 silver dollar.** Flowing hair. Only variety with 16 berries in wreath, 8 on each branch. **B-3.** Very fine, all letters and date sharply struck. From the Col. Green coll'n. Scarce variety, and will bring \$50 or more. (W.G.C. 1945 sold at \$43).
1459. **1795 silver dollar. B-4.** Flowing hair type. The 15th or last star is entirely under the bust, and this distinguishes this variety from all others. Very fine; a slight planchet defect on reverse edge. The obverse of this very specimen was used for the plate in the Bolender book on dollars! Just as scarce as the last. \$50.
1460. **1795 silver dollar.** Flowing hair. Reverse with **three leaves** under each wing of eagle, and a diagonal bar in obverse field between 5th star and uppermost curl. **B-5.** Very fine and well-struck. Sold ex. fine in W.G.C. sale 1945 at \$85. This one valued at \$40.
1461. **1795 silver dollar. B-6.** Flowing hair. Wide date, the 79 closest. Reverse has 3 leaves under each wing. Very fine; slight nick on edge opposite second star. \$40.

1462. **1795 silver dollar. B-8. Rarity 7!** Flowing hair. The head is much too high close to LIBERTY and distant from date, which easily distinguishes this variety from all others. Several bad dents on each side, otherwise fine. Not a choice piece but because of its extreme rarity valued at \$40. I have seen but one other specimen.
1463. **1795 silver dollar. B-9.** (Combination of obverse B-3 with reverse B-4.) Some file marks and several scratches, but very good. Very rare variety. \$30.
1464. **1795 silver dollar. B-13.** Flowing hair, wide date. Rx. 2 leaves, 19 berries. Fine; wear on hair and eagle. Excessively rare. Haseltine had met with only a single specimen and called it "probably unique". This number was noticeably missing in that great sale of the "World's Greatest Collection" held by the Numismatic Gallery in Jan. 1945. I have seen only three in forty years! Value \$75.
1465. **1795 silver dollar. B-14.** Draped bust and hair tied with ribbon and thus known as the "fillet bust". Reverse: the eagle is much smaller than on any of the preceding varieties. Extremely fine, with golden mint lustre close to stars, hair, letters and wreath. Nicely toned piece. An uncirculated specimen of this variety sold in the Atwater sale for \$157.50. This one is valued at \$75 or more.
1466. **1795 silver dollar. B-15.** Draped fillet bust well-centered. 15 stars. Small eagle. Extremely fine, choice and desirable and a beautiful dollar. \$75.
1467. **1796 silver dollar. B-1.** Small date & letters. Two points of first star touch curl. Fine; file marks done at mint to correct planchet weight. \$30.
1468. **1796 silver dollar. B-2.** Small date & letters. Only one point of star touches curl. Fine; lightly scratched & nicked in field before face. Scarce. \$30.
1469. **1796 silver dollar. B-4.** Small date & large letters. Ex. fine; edge slightly nicked above head. Planchet defects show on each side in hair and on eagle's neck. Sharp impressions. \$40.
1470. **1796 silver dollar. B-5a.** Large date & small letters. Fine. Some wear on high portion of hair and on eagle. \$25.
1471. **1797 silver dollar. B-1.** Sixteen stars, 7 on right facing bust. Reverse: large letters in legend, 8 berries on branch. Perfect dies. Very fine, nice even impressions. \$50.
1472. **1797 silver dollar. B-1b.** Same as preceding, but with several die cracks on both obverse and reverse. Fine. \$30.
1473. **1797 silver dollar. B-3.** Sixteen stars, only 6 on right facing bust. Very fine; several minute nicks on obverse. This identical coin was used to illustrate both obverse and reverse in my book on the early dollars (see plate III). \$40.
1474. **1797 silver dollar. B-3a.** Smaller planchet, size 39 mm. Very fine. Scarce. \$45.
1475. **1797 silver dollar. B-3b.** Variety on small planchet, 39 mm. Some letters very slightly bifurcated. Very good. \$20.

- 
1476. **1798 silver dollar. B-2.** Fifteen stars. Small eagle. Strictly good specimen, everything very clear, the wear evenly distributed. Rare. \$25.
1477. **1798 silver dollar. B-3.** Thirteen stars. Knobbed 9. Large eagle. Obverse fine to very fine. Rx. fine. Rare. This identical specimen was used for both obverse and reverse plates in my book on the early dollars! \$35.
1478. **1798 silver dollar. B-4.** Extremely rare variety, rarity 6. Lacking in W. G. Coll'n. Very fine. \$50.
1479. **1798 silver dollar. B-5.** Excessively rare, rarity 7. I have seen but three examples in forty years. Not in the World's Greatest coll'n. This is from the Col. Green collection. A vertical die break along right side of shield across reverse. Obv. very fine. Reverse fine. \$60.
1480. **1798 silver dollar. B-6.** Very fine. Obverse especially sharp. \$40.
1481. **1798 silver dollar. B-7.** Extremely rare variety. I have seen but three specimens. Good. \$20.

1483. **1798 silver dollar. B-9a.** Close date. 5 large berries, 12 arrows. Several die cracks. File marks to adjust planchet weight. Lacking in W. G. coll'n. \$40.

1487. **1798 silver dollar. B-12.** Date spaced 17 9 8. Obverse very fine. Reverse shows considerable wear on high portions of eagle. Rare variety. The obverse of this specimen was used for the plate in the Bolender book. \$35.
1488. **1798 silver dollar. B-13.** Medium wide even date. Only 10 arrows. Ex. fine. \$45.
1489. **1798 silver dollar. B-14.** Very fine, even impressions. \$35.
1490. **1798 silver dollar. B-15.** Wide date. Large heraldic eagle. Fine; edge very slightly nicked. \$17.50.
1491. **1798 silver dollar. B-15a.** Similar to last, but the stars appear smaller, though it is from the same die. Extremely fine, a splendid specimen. Cost the owner \$65 several years ago. Very rare variety. Worth \$75 or \$80 today.
1492. **1798 silver dollar. B-17.** Very wide date, 8 touching bust. Reverse 5 very small berries. Fine. Excessively rare variety. Haseltine's specimen was only good, and besides this one, I know of but one other, that in my own collection. It should bring \$50.

#### UNITED STATES PATTERN DOLLARS

1655. 1864 U.S. Pattern for silver dollar. Type **with motto** as was adopted in 1866. Struck in copper. AW-434. Proof. Not over 15 coined. Three specimens appeared in the last four years,

and averaged about \$50 each. There are higher records. In my estimates below, I shall give the average price realized at auction over the past four years. This is a most interesting series and always attracts attention at conventions, and this is a rare opportunity for you to add at least one selected rare pattern dollar to your collection, as well as a few of the early dollars of the days of Washington and Jefferson from the grand collection offered in this sale.

1656. 1865 pattern for silver dollar. Same as preceding, except date. AW-491. Copper proof. **In beautiful plastic holder.** Only 15 struck. \$55.
1657. 1865 pattern for silver dollar. Regular dies, but **struck in copper.** Without motto. AW-493. Very fine. Just as rare as the preceding patterns, and no record in Col. Curtis's book of any offered in past 4 years. \$50.
1658. 1870 pattern for silver dollar. Indian princess seated by globe, holding pole and Liberty cap. The design by Lonacre. Rx. 1 DOLLAR in wreath, STANDARD above. Plain edge. AW-853. Copper proof. Only 7 said to have been struck. \$40.
1659. 1870 pattern for silver dollar. Obverse **Indian Princess type** as last. Rx. regular die. Struck in copper with reeded edge. AW-860. Uncirculated, red toning to olive. Same rarity as last. Three specimens sold at auction in all sales in 4 years have averaged \$55 each.
1660. 1870 pattern silver dollar. Liberty seated l., with cap on pole, design by Barber. Reverse regular die. AW-871. Plain edge. **Silver proof.** Brilliant and very rare, only 4 or 5 coined. \$75.
1661. 1870 pattern for silver dollar. Same design as last, but struck in copper with reeded edge. **Thick planchet.** AW-874. Proof with wire edge. No record in Col. Curtis's book of any offered in past 4 years. Not over 15 struck. \$50.
1662. 1870 pattern for silver dollar. Similar to preceding lot, but struck on regular (thinner than last) planchet. AW-876. A beauty, brilliant red copper proof. Two specimens sold in past four years in all sales went at \$70 each.
1663. 1871 pattern silver dollar. Indian Princess design by Longacre, with stars. Rx. regular die. Plain edge. AW-1122. Struck in silver. Brilliant proof. **Only seven coined.** Another beautiful and rare coin valued at \$75. (Only one other specimen appeared in past 4 years.)
1664. **1871 pattern for silver dollar.** Same design as preceding, but struck in copper, with reeded or milled edge. AW-1125. Proof. This is a beautiful specimen, and was formerly in the Stickney collection, one of the greatest of all times, and one of the oldest in this country. \$50.
1665. **1872 pattern Commercial Dollar.** Obverse Indian Princess design with stars, by Longacre. Rx. COMMERCIAL DOLLAR 420 GRS 900 FINE. within wreath, and above UNITED STATES OF AMERICA. AW-1249. Plain edge. Silver proof. Only about 7 pieces coined. Col. Curtis's book reports two pieces at auction

in last four years, which sold for \$100 each. Interesting and very rare experimental piece.

1666. **1873 pattern for trade dollar.** Beautiful head of Liberty to left, with hair tied up on back of head, and long curl hanging down from ear, sharp pointed coronet with LIBERTY, 13 stars. Rx. TRADE DOLLAR 420 GRAINS 900 FINE. within wreath, and above UNITED STATES OF AMERICA. Copper, reeded edge. AW-1299. Red proof. It is believed that less than 25 were minted. Only one appeared at auction in the past four years (sold at \$67.50). This piece came from the Schwab coll'n. (sale by Elder many years ago and Mr. Schwab had bought it in the Stickney sale). \$75.

1671. **1878 Goloid Metric Dollar.** Large Liberty head l. Reverse GOLOID 1 G. 24 S. etc. In this experimental piece, the idea presented was to make a smaller dollar of lighter weight for convenience, but to get the value in the coin one part of gold was alloyed with 24 parts of silver. AW-1565. Reeded edge. Silver proof. Last sale record \$35.
1672. 1879 pattern dollar, **Barber's Metric design.** Large head with pointed coronet. With DEO ESTA GLORIA. Contains some gold. AW-1598. Reeded edge. Silver proof. About 40 or 50 coined. \$35.
1673. **1879 Goloid Metric Dollar,** pattern for a smaller coin, 32 mm. DEO EST GLORIA (God is Glory). 15.3 parts gold, 236.7 silver, and 28 parts copper. These figures within circle of 38 stars. 100 CENTS below. AW-1607. Reeded edge. Copper proof. Not over 15 coined. From Newcomer coll'n. \$30.

### **COIN COLLECTORS' COLUMN OF COMMENTS**

**Thank you** very much for your kind interest and participation in my 180th sale held March 31st. More than 600 bid sheets were received, and we do appreciate your mailing them early, to avoid that last day rush, when mail is always heavy, and clerical work so great. I also want to thank all the buyers who wrote to me after the sale expressing their appreciation and satisfaction of the condition of the coins they received. Because there were so many letters, I can print only a few of their comments this time.

From Oregon—"It is a pleasure to pay for nicely graded coins like you sent me. I hope to get more in the next sale."

From Washington—"I am very elated and glad to receive such choice coins. Thanks to fine catalogue work".

From Chicago—"I bought \$400 worth of old type silver dollars at your last sale and have received the coins today. I have purchased coins from many other dealers, but I have never seen them graded as conservatively. I was quite pleasantly surprised."

From West Virginia—"Coins arrived in good shape and are nice specimens".

From Pittsburgh—"Check enclosed. I am pleased with the whole lot".

From Canada—"We are very pleased with all coins received".

## THE UNITED STATES EARLY SILVER DOLLARS FROM 1794 TO 1803

by M. H. Bolender

The only former reference work was Haseltine's list published in 1881, merely a pamphlet or sale catalogue with no plates. This new work follows Haseltine's numbers, but with additions and corrections, plus a simplification of descriptions and the important addition of illustrations of the eighty-four obverse and the seventy-five reverses. Quick-finding lists and helpful tables make attribution not only quick and easy, but accurate and pleasant.

The descriptive list is prefaced by a history of early silver dollars, and a loose-leaf valuation sheet is included quoting current prices of all varieties in five condition grades.

This book is the result of some 40 years' experience and collecting, during which time over 5,000 specimens were examined. A record of the frequency in which each variety appeared was kept, and the degree of rarity given in the text.

This attractive large volume, size 9¼ x 12¼ inches, is quality printed, and handsomely bound in blue cloth, lettered in gold.

The price is \$10.00 which is no more than the Haseltine reprints cost to-day (and those are with no plates). We believe you can make no better investment to-day, than by adding this useful book to your library, and if it does not bring you a great deal of pleasure also, your money will be cheerfully refunded upon return of the book.
